Experiment 3

Code:

A screenshot of an IDE window showing the code for HelloWorldServlet.java. The code is as follows:

```
1 import java.io.IOException;
2 import java.io.PrintWriter;
3 import javax.servlet.ServletException;
4 import javax.servlet.http.HttpServlet;
5 import javax.servlet.http.HttpServletRequest;
6 import javax.servlet.http.HttpServletResponse;
7
8 public class HelloWorldServlet extends HttpServlet {
9
10     protected void doGet(HttpServletRequest request, HttpServletResponse response)
11         throws ServletException, IOException {
12
13         response.setContentType("text/html");
14
15         PrintWriter out = response.getWriter();
16         out.println("HiHello, World!</h1>");
17     }
18 }
```

The IDE interface includes a menu bar (File, Edit, Selection, View, Go, Run), a search bar, and a status bar at the bottom showing 'Ln 16, Col 2', 'Spaces: 4', 'UTF-8', 'GBK', and 'Java'. The system tray at the bottom right shows the date and time as '10:22 PM 1/26/2025'.
